

C25 – CONCENTRATED MULTIPURPOSE CLEANER AND SANITIZER

Product Description

A high quality performance product providing a high standard of cleaning, degreasing and disinfection. Designed for a wide variety of applications, e.g. the cleaning of floors, walls and equipment etc. and also for cleaning the interiors of food delivery vehicles where a high standard of cleaning and disinfection is required.

Product Features

- A highly effective hard surface cleaner, ideal for use where food is processed.
- May be used neat on ovens to remove baked-on carbon deposits and fats, or diluted and used in floor scrubbers where it's residual antistatic properties protect from risk of static shock.
- Highly effective through all forms of foaming equipment and produces a very rich clinging foam.
- Complies with the European Suspension Test (BSEN1276) when diluted 1:50 (2%) after a contact time of 30 seconds and has been found to be effective against the following bacteria: *Listeria monocytogenes*, MRSA, *salmonella typhimurium*, *pseudomonas aeruginosa*, *Escherichia coli*, *staphylococcus aureus* and *enterococcus hirae*.
- **It has also been tested under BSEN1276 and found to kill 99.9% of germs within 30 seconds when diluted 2%**
- It also has passed the BS5929 (1984) Triangle Taint Test at 2% dilution and showing it to be non-tainting to foodstuffs and **safe for use in a food-processing environment** without the need to rinse i.e. food safe.

Directions for Use

Note: Use biocides safely. Always read the label and product information before use.

- Wash floors and walls using a clean mop or cloth, then rinse with clean water and allow to dry. Rinse out mop or cloth.
- May be diluted up to 200 times when used through a high-pressure washer, even in hard water areas.
- When used at up to 1 to 50 it is also an effective bactericide.
